The strength of metal

A transgressive metal with a strong personality

In the purest industrial style, Gravity bursts into the interior spaces with more strength than ever. A transgressive metal, a metal sheet weathered by rust with a strong personality that helps to create modern and minimalist atmospheres.

Al más puro estilo industrial, Gravity irrumpe en los espacios de interior con más fuerza que nunca. Un metal transgresor, una chapa metálica degradada por la oxidación con una fuerte personalidad que ayuda a crear ambientes modernos y minimalistas.

Dans le plus pur style industriel, Gravity fait irruption dans les espaces intérieurs avec plus de force que jamais. Un métal transgressif, une tôle dégradée par l'oxydation avec une forte personnalité qui contribue à créer des environnements modernes et minimalistes.

Im reinsten Industriestil stürmt Gravity mit mehr Kraft denn je in die Innenräume. Ein transgressives Metall, ein durch Oxidation zersetztes Blech mit einer starken Persönlichkeit, das hilft, moderne und minimalistische Umgebungen zu schaffen.

THIRD FIRE DECOR

The intensity of fire applied to the creation of much deeper colours and textures. Vivid and metallic colours take centre stage; ceramic pieces take on decorative value and provide a special distinction to our spaces.

La intensidad del fuego aplicada a la creación de colores y relieves mucho más profundos. Colores vivos y metálicos adquieren protagonismo; las piezas cerámicas cobran valor decorativo y otorgan una especial distinción a nuestros espacios.

L'intensité du feu appliquée à la création de couleurs et de reliefs bien plus profonds. Les couleurs vives et métalliques occupent le devant de la scène ; les pièces de céramique prennent une valeur décorative plus importante et apportent une élégance particulière à nos espaces.

Die Intensität des Feuers führte zu viel tieferen Farben und Reliefs. Lebendige und metallische Farben stehen im Mittelpunkt, Keramikstücke erhalten dekorativen Wert und verleihen unseren Räumen etwas besonderes.
