the art of illuminating porcelain tiles with sheer iridescent effects

Without the people who live in, homes, buildings and towns are nothing but empty spaces. Aware of this, for more than eighty years Maimoon has designed and produced ceramic surfaces where pragmatism meets beauty, innovation completes tradition, and technology is shaped to human needs. Maimoon Ceramica technologies, high standards and reliability are matched with style, taste, a passion for ceramics and a love of beauty. Because when design ends emotion always begins.
