Porcelain tiles can be effectively combined with floor heating systems.

Il gres porcellanato può essere abbinato in modo efficace a sistemi di riscaldamento a pavimento.

WALL TILES ADDITIONAL BENEFITS

PROPRIETÀ CERAMICA
DA RIVESTIMENTO

While porcelain tiles are ideal for use on the floor thanks to their hardness and extreme durability, the light weight and workability of white body tiles make them ideal for use on walls: cuts and holes can be made quickly and easily, reducing installation time and costs.

Mentre il gres porcellanato è ideale per l'uso a pavimento, per la sua durezza e l'estrema resistenza, le caratteristiche di leggerezza e lavorabilità del rivestimento in pasta bianca lo rendono ideale per l'uso a parete: i tagli e i fori saranno eseguiti facilmente e velocemente, riducendo i tempi e i costi di posa.

Ease of installation

Facilità di lavorazione

Cuts, holes, and bevels are easily made and reduce the time it takes to lay the white body tiles.

Tagli, fori, bisellature sono facili da realizzare e rendono più veloce la posa dei rivestimenti in pasta bianca.

Extremely easy to clean

Estrema facilità di pulizia

White body ceramic tiles can be cleaned with a simple passage of hot water or neutral detergent.

I rivestimenti ceramici in pasta bianca si puliscono con un semplice passaggio di acqua calda o detergente neutro.

SUSTAINABILITY

In the environmental and economic sciences, sustainability is defined as the condition of development capable of ensuring the satisfaction of the needs of the present generation without compromising the ability of future generations to realize their own. Several international certifications guarantee that the Atlas Concorde products meet the criteria of sustainable construction, attesting to their low impact on the ecosystem, compliance with declared standards and attention to comfort.

SOSTENIBILITÀ

Nelle scienze ambientali ed economiche, la sostenibilità è definita come condizione di uno sviluppo in grado di assicurare il soddisfacimento dei bisogni della generazione presente senza compromettere la possibilità delle generazioni future di realizzare i propri. Diverse certificazioni internazionali garantiscono che i prodotti Atlas Concorde rispondono ai criteri del costruire sostenibile, attestandone il basso impatto sull'ecosistema, la conformità agli standard dichiarati e l'attenzione al comfort abitativo.

CERTIFICATIONS

In 1995 Atlas Concorde obtained **ISO 9001** quality certification for its products. It is an international recognition referring to the company's entire quality system, from the receipt of raw materials to their transformation, from the distribution of the product to their placement on the market. The environmental footprint of products (**PEF, Product Environmental Footprint**, according to Recommendation 2013/179/EU) is a measurement that, based on various criteria, indicates the environmental performance of a product or service over its lifetime, taking into account supply chain activities: from the extraction of raw materials, to the production, use, and end of life of the product. Atlas Concorde has a certified PEF. Atlas Concorde's PEF was verified by the DNV-GL certifying body. Atlas Concorde also has an EPD declaration, which attests to the environmental sustainability of its products. The **EPD (Environmental Product Declaration)** also assesses the life cycle of a product, from extraction to the factory gate, before it is transported and distributed for sale. Atlas Concorde's EPD declaration was certified by the independent certifying body EPD ITALY. Atlas Concorde has a **HPD (Health Product Declaration)** declaration, a complete report on the health characteristics of the finished product, compiled according to the HPD standard. Atlas Concorde has also drafted an FDES environmental declaration (Fiche de déclaration environnementale et sanitaire), this also having the purpose of transparently disclosing the product's impact, covering each phase from product extraction to production and finally laying and use.

CERTIFICAZIONI

Sin dal 1995 Atlas Concorde ha ottenuto per i propri prodotti la certificazione di qualità **ISO 9001**. Si tratta di un riconoscimento internazionale riferito all'intero sistema di qualità aziendale, dall'ingresso delle materie prime alla loro trasformazione, dalla distribuzione del prodotto alla sua immissione sul mercato. L'impronta ambientale dei prodotti (**PEF, Product Environmental Footprint**, secondo la Raccomandazione 2013/179/UE) è una misura che, sulla base di vari criteri, indica le prestazioni ambientali di un prodotto o servizio nel corso del proprio ciclo di vita, tenendo conto delle attività della catena di approvvigionamento: dall'estrazione di materie prime, alla produzione, all'uso e fine vita del prodotto. Atlas Concorde dispone di una PEF certificata. La PEF di Atlas Concorde è verificata dall'organismo di certificazione DNV-GL. Atlas Concorde dispone inoltre di una dichiarazione EPD, che attesta la sostenibilità ambientale dei prodotti. Anche la **EPD (Environmental Product Declaration)** valuta il ciclo di vita di un prodotto, dall'estrazione al cancello della fabbrica, prima che sia trasportato e distribuito per la vendita. La dichiarazione EPD di Atlas Concorde è stata certificata dall'ente di certificazione indipendente EPD ITALY. Atlas Concorde dispone della dichiarazione **HPD (Health Product Declaration)**, un report completo sulle caratteristiche di salubrità del prodotto finito, compilato secondo lo standard HPD. Atlas Concorde ha realizzato inoltre la dichiarazione ambientale FDES (Fiche de déclaration environnementale et sanitaire), anch'essa con lo scopo di rendicontare in modo trasparente l'impatto del prodotto, a partire dalla fase di estrazione del prodotto, passando dalla fase di produzione, fino alla posa ed all'utilizzo.

LEED V4

All Atlas Concorde porcelain floor and white body wall tiles can be used in projects that follow the guidelines of the **GREEN BUILDING COUNCIL**, which promotes the independent certification system **LEED BD&C v4** (Leadership in Energy and Environmental Design, Building Design & Construction), whose parameters establish precise criteria for the design and construction of buildings that are healthy, energy efficient and with low environmental impact. Ceramiche Atlas Concorde is a member of the US Green Building Council. All our products in porcelain stoneware and in white clay can therefore contribute to obtaining the **LEED V4** rating of buildings, in relation to different areas: Sustainability of the Site, Materials and Resources, Internal Environmental Quality.

LEED V4

Tutti i prodotti in gres porcellanato e in pasta bianca Atlas Concorde possono essere utilizzati in progetti che seguono le linee guida del **GREEN BUILDING COUNCIL**, che promuove il sistema di certificazione indipendente **LEED BD&C v4** (Leadership in Energy and Environmental Design, Building Design & Construction), i cui parametri stabiliscono precisi criteri di progettazione e realizzazione di edifici salubri, energeticamente efficienti e a impatto ambientale contenuto. Ceramiche Atlas Concorde è membro dell'US Green Building Council. Tutti i nostri prodotti in gres porcellanato e in pasta bianca possono quindi contribuire all'ottenimento del rating **LEED V4** degli edifici, relativamente a diverse aree tematiche: Sostenibilità del Sito, Materiali e Risorse, Qualità ambientale Interna.
