VERVE

il pensiero che c'è dentro le cose: in questo concetto l'essenza di Verve

Sfumature di sabbia, aggregazioni di materia, geometrie artistiche ton sur ton: l'eccellenza di Verve è nella particolarità di ogni pezzo, pensato come elemento unico e irripetibile. Lo stile industriale del cemento ed il calore del cotto si sono incontrati in un mix insolito, hanno dato vita ad una collezione originale e dalle vaste possibilità applicative. Interpretare le molteplici sfumature del contemporaneo, dal residenziale agli spazi commerciali, dal recupero di spazi industriali nei contesti urbani a dimore di prestigio. Grafiche forti e stonizzate accanto a quelle più sobrie e neutre: espressione concettuale ed estetica di una personalità versatile. Intrecci e giochi geometrici che interpretano in stile contemporaneo il gusto raffinato della classicità.

CHARCOAL

materie sabbiose e ossidazioni leggere

GREY

freddi ed essenziali, i grigi senza mezzi termini

BEIGE

resine chiare, rarefatte da un soffio rosato, come dentro ad una nuvola

BROWN

intenso, caldo, profondo, l'eleganza del marrone senza compromessi

IVORY

morbido e delicato, la bellezza austera dell'avorio

COTTO

materico, naturale, compatto e moderno

CERDOMUS
ceramiche

The thought that is within everything: this concept is the essence of Verve.

Nuances of sand, materials are added, tone-on-tone artistic patterns: the excellence of Verve lies in those particular traits in each piece, a piece thought as a unique and unrepeatable item. The industrial style of concrete meets the warmth of terracotta in an exceptional mix; they have given rise to an original collection and an array of applications. To interpret the diverse nuances of contemporary taste, from residential to commercial spaces, from the restoration of industrial spaces in urban settings to luxury homes. Strong graphics in varying tones next to other simpler and more neutral ones. Expression of the conceptual and the aesthetic of a versatile personality. Intertwined geometrical patterns that revisit the refined taste of the classic under a contemporary style.

art. 62167 mosaico 4,7_1,8" vintage charcoal

Le sens des choses : la nature de Verve réside dans ce concept.

Des nuances sable, des agrégations de matière, des géométries artistiques ton sur ton; l'excellence de Verve se traduit dans la particularité de chaque pièce, pensée comme un élément unique et exceptionnel. Le style industriel du ciment et la chaleur de la terre cuite ont été unis dans un mélange insolite pour créer une collection originale permettant une multitude d'applications. Interpréter les multiples nuances du style contemporain, en allant des habitations résidentielles aux espaces commerciaux, en passant par la reconversion d'espaces industriels dans des contextes urbains en demeures de prestige. Des notes graphiques fortes et nuancées cohabitent avec des notes plus sobres et neutres: l'expression conceptuelle et esthétique d'une personnalité éclectique. Des entrelacements et des jeux de formes géométriques qui interprètent le goût raffiné du classicisme dans un style contemporain.

Der Gedanke, der in den Dingen steckt: In diesem Konzept die Essenz von Verve.

Sandige Farbnuancen, Aggregation von Materie, künstlerische Geometrien ton sur ton: Die Exzellenz von Verve liegt in der Besonderheit jedes Stücks, das als einmaliges, nicht wiederholbares Element gedacht ist. Der industrielle Stil des Betons und der Eindruck von Wärme des gebrannten Tons trafen in einem ungewohnten Mix aufeinander, ließen eine originelle Kollektion entstehen, die unendliche Anwendungsmöglichkeiten bietet. Die vielzähligen Nuancen des Zeitgenössischen interpretieren, überall: in Wohnungen, Geschäftsräumen, sanierten Industriegebäuden in städtischer Umgebung oder in vornehmen Wohnsitzen. Starke, kontrastreiche Grafiken neben nüchternen, neutralen: konzeptueller und ästhetischer Ausdruck einer vielseitigen Persönlichkeit. Flechtmuster und geometrische Spiele, die in zeitgenössischem Stil den raffinierten Geschmack der Klassik interpretieren.

La idea que hay en las cosas: en este concepto está la esencia de Verve.

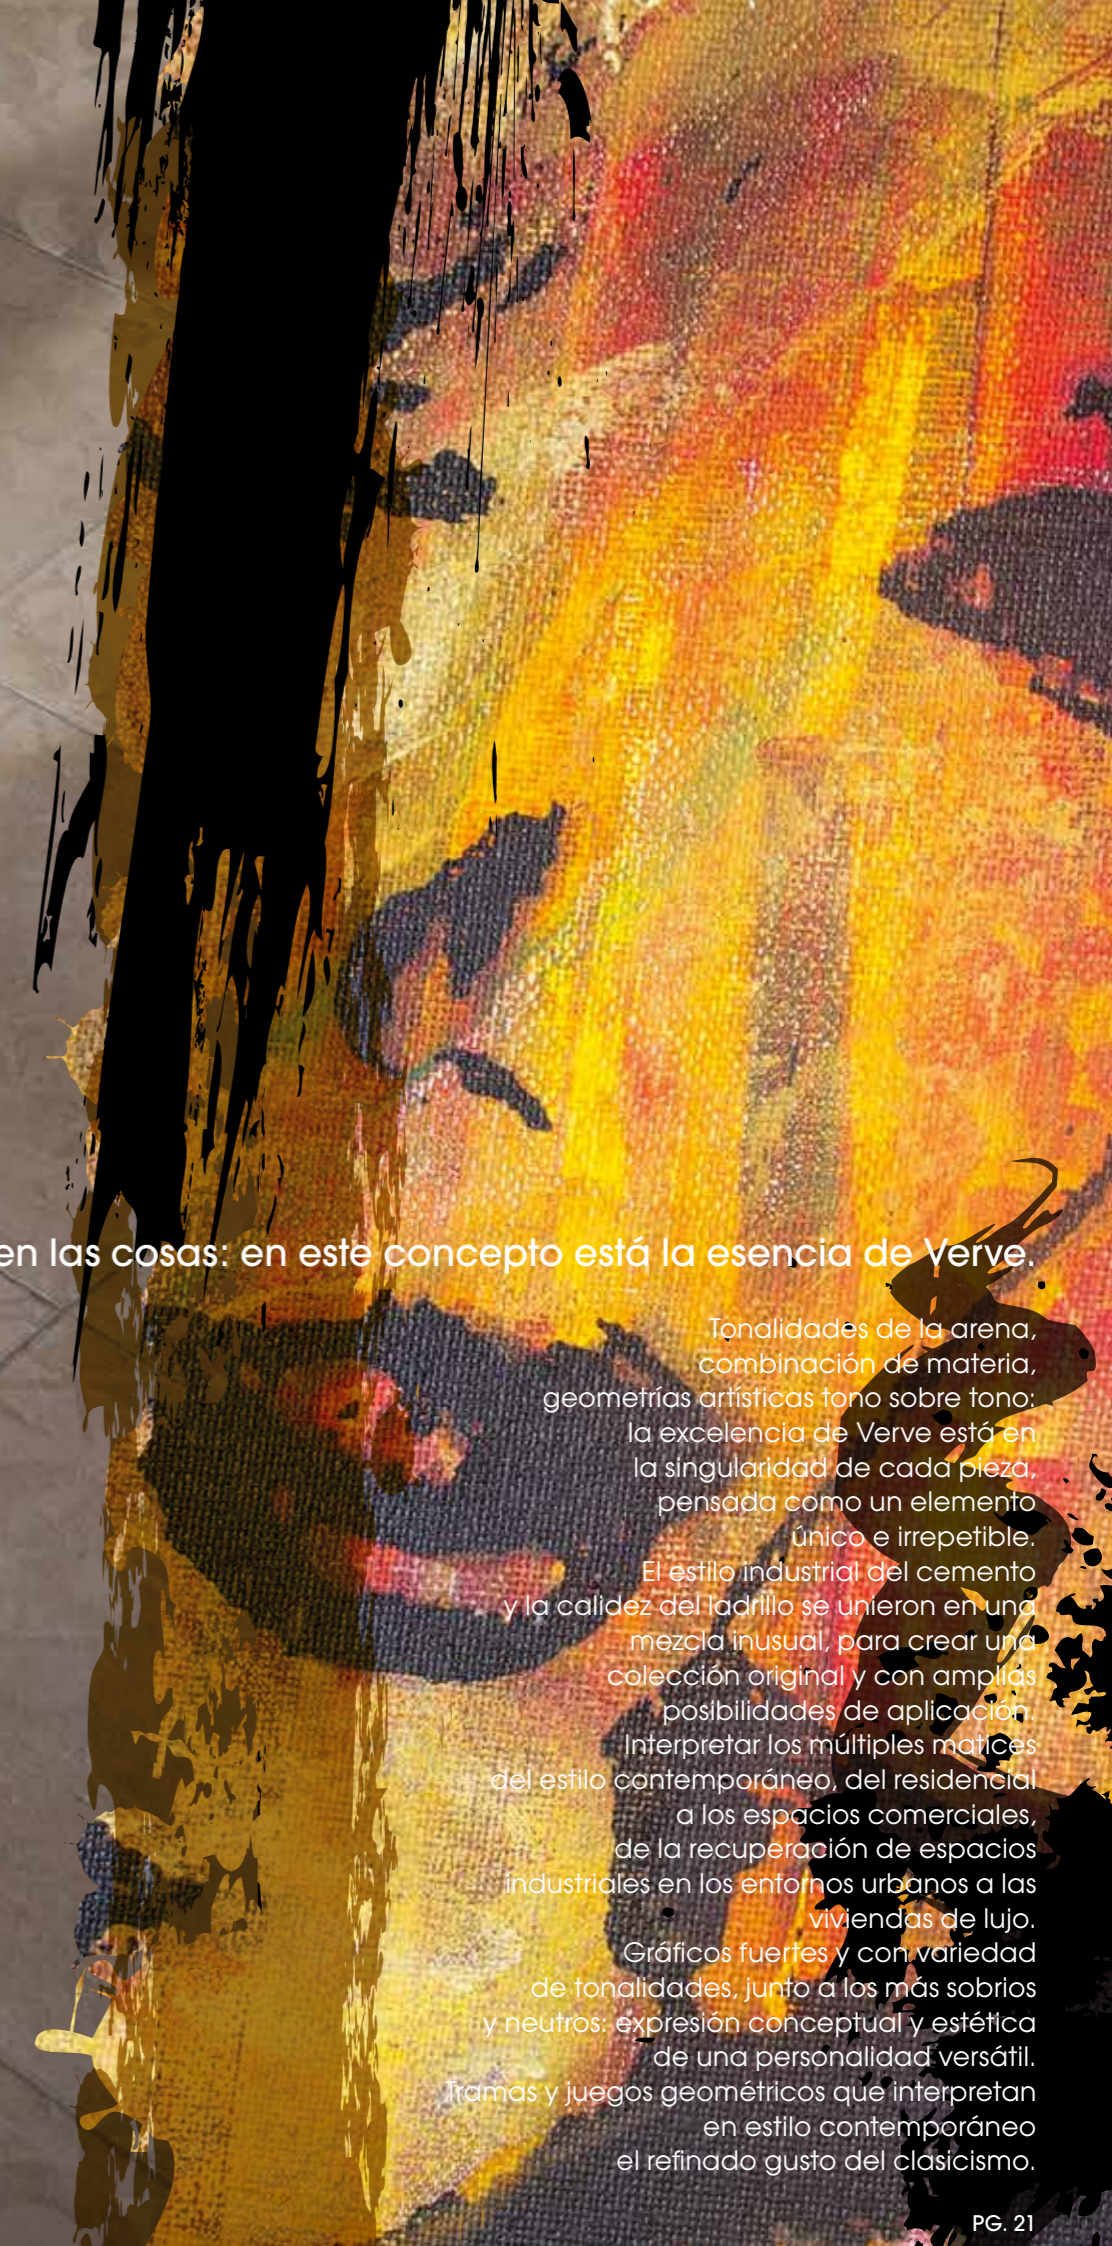

Tonalidades de la arena, combinación de materia, geometrías artísticas tono sobre tono: la excelencia de Verve está en la singularidad de cada pieza, pensada como un elemento único e irrepetible.

El estilo industrial del cemento y la calidez del ladrillo se unieron en una mezcla inusual, para crear una colección original y con amplias posibilidades de aplicación.

Interpretar los múltiples matices del estilo contemporáneo, del residencial a los espacios comerciales, de la recuperación de espacios industriales en los entornos urbanos a las viviendas de lujo.

Gráficos fuertes y con variedad de tonalidades, junto a los más sobrios y neutros: expresión conceptual y estética de una personalidad versátil.

Tramas y juegos geométricos que interpretan en estilo contemporáneo el refinado gusto del clasicismo.

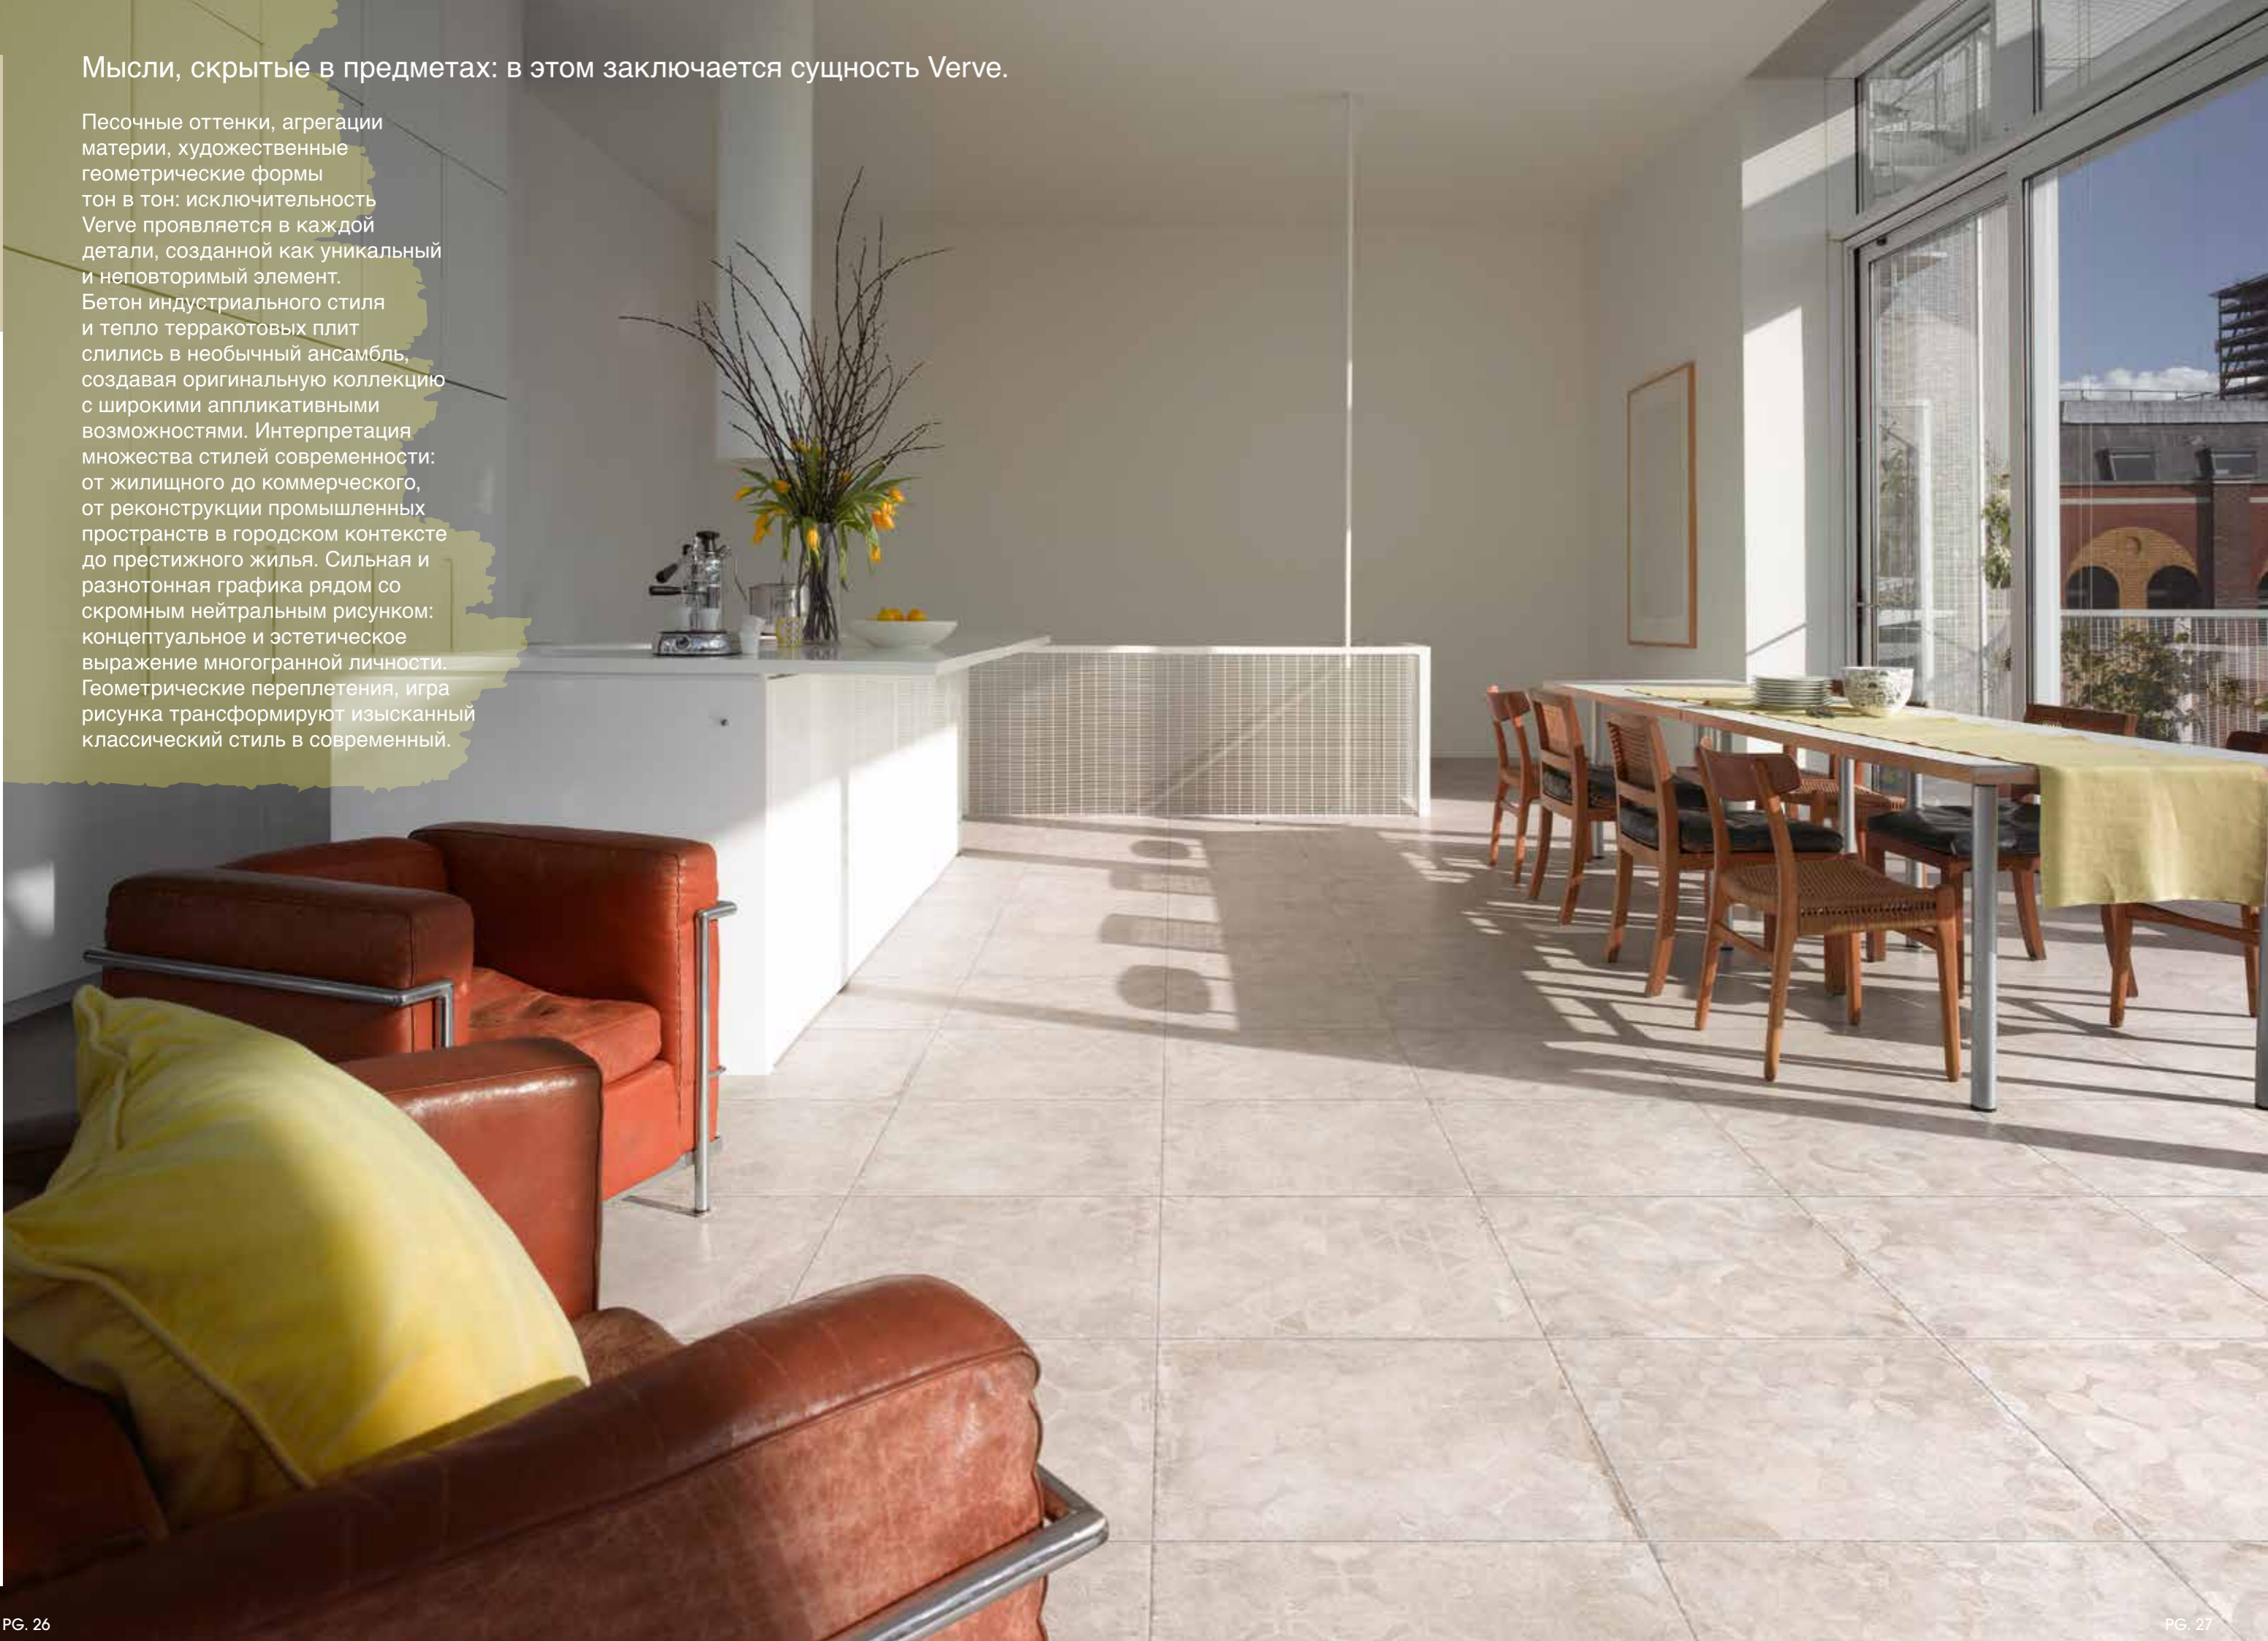

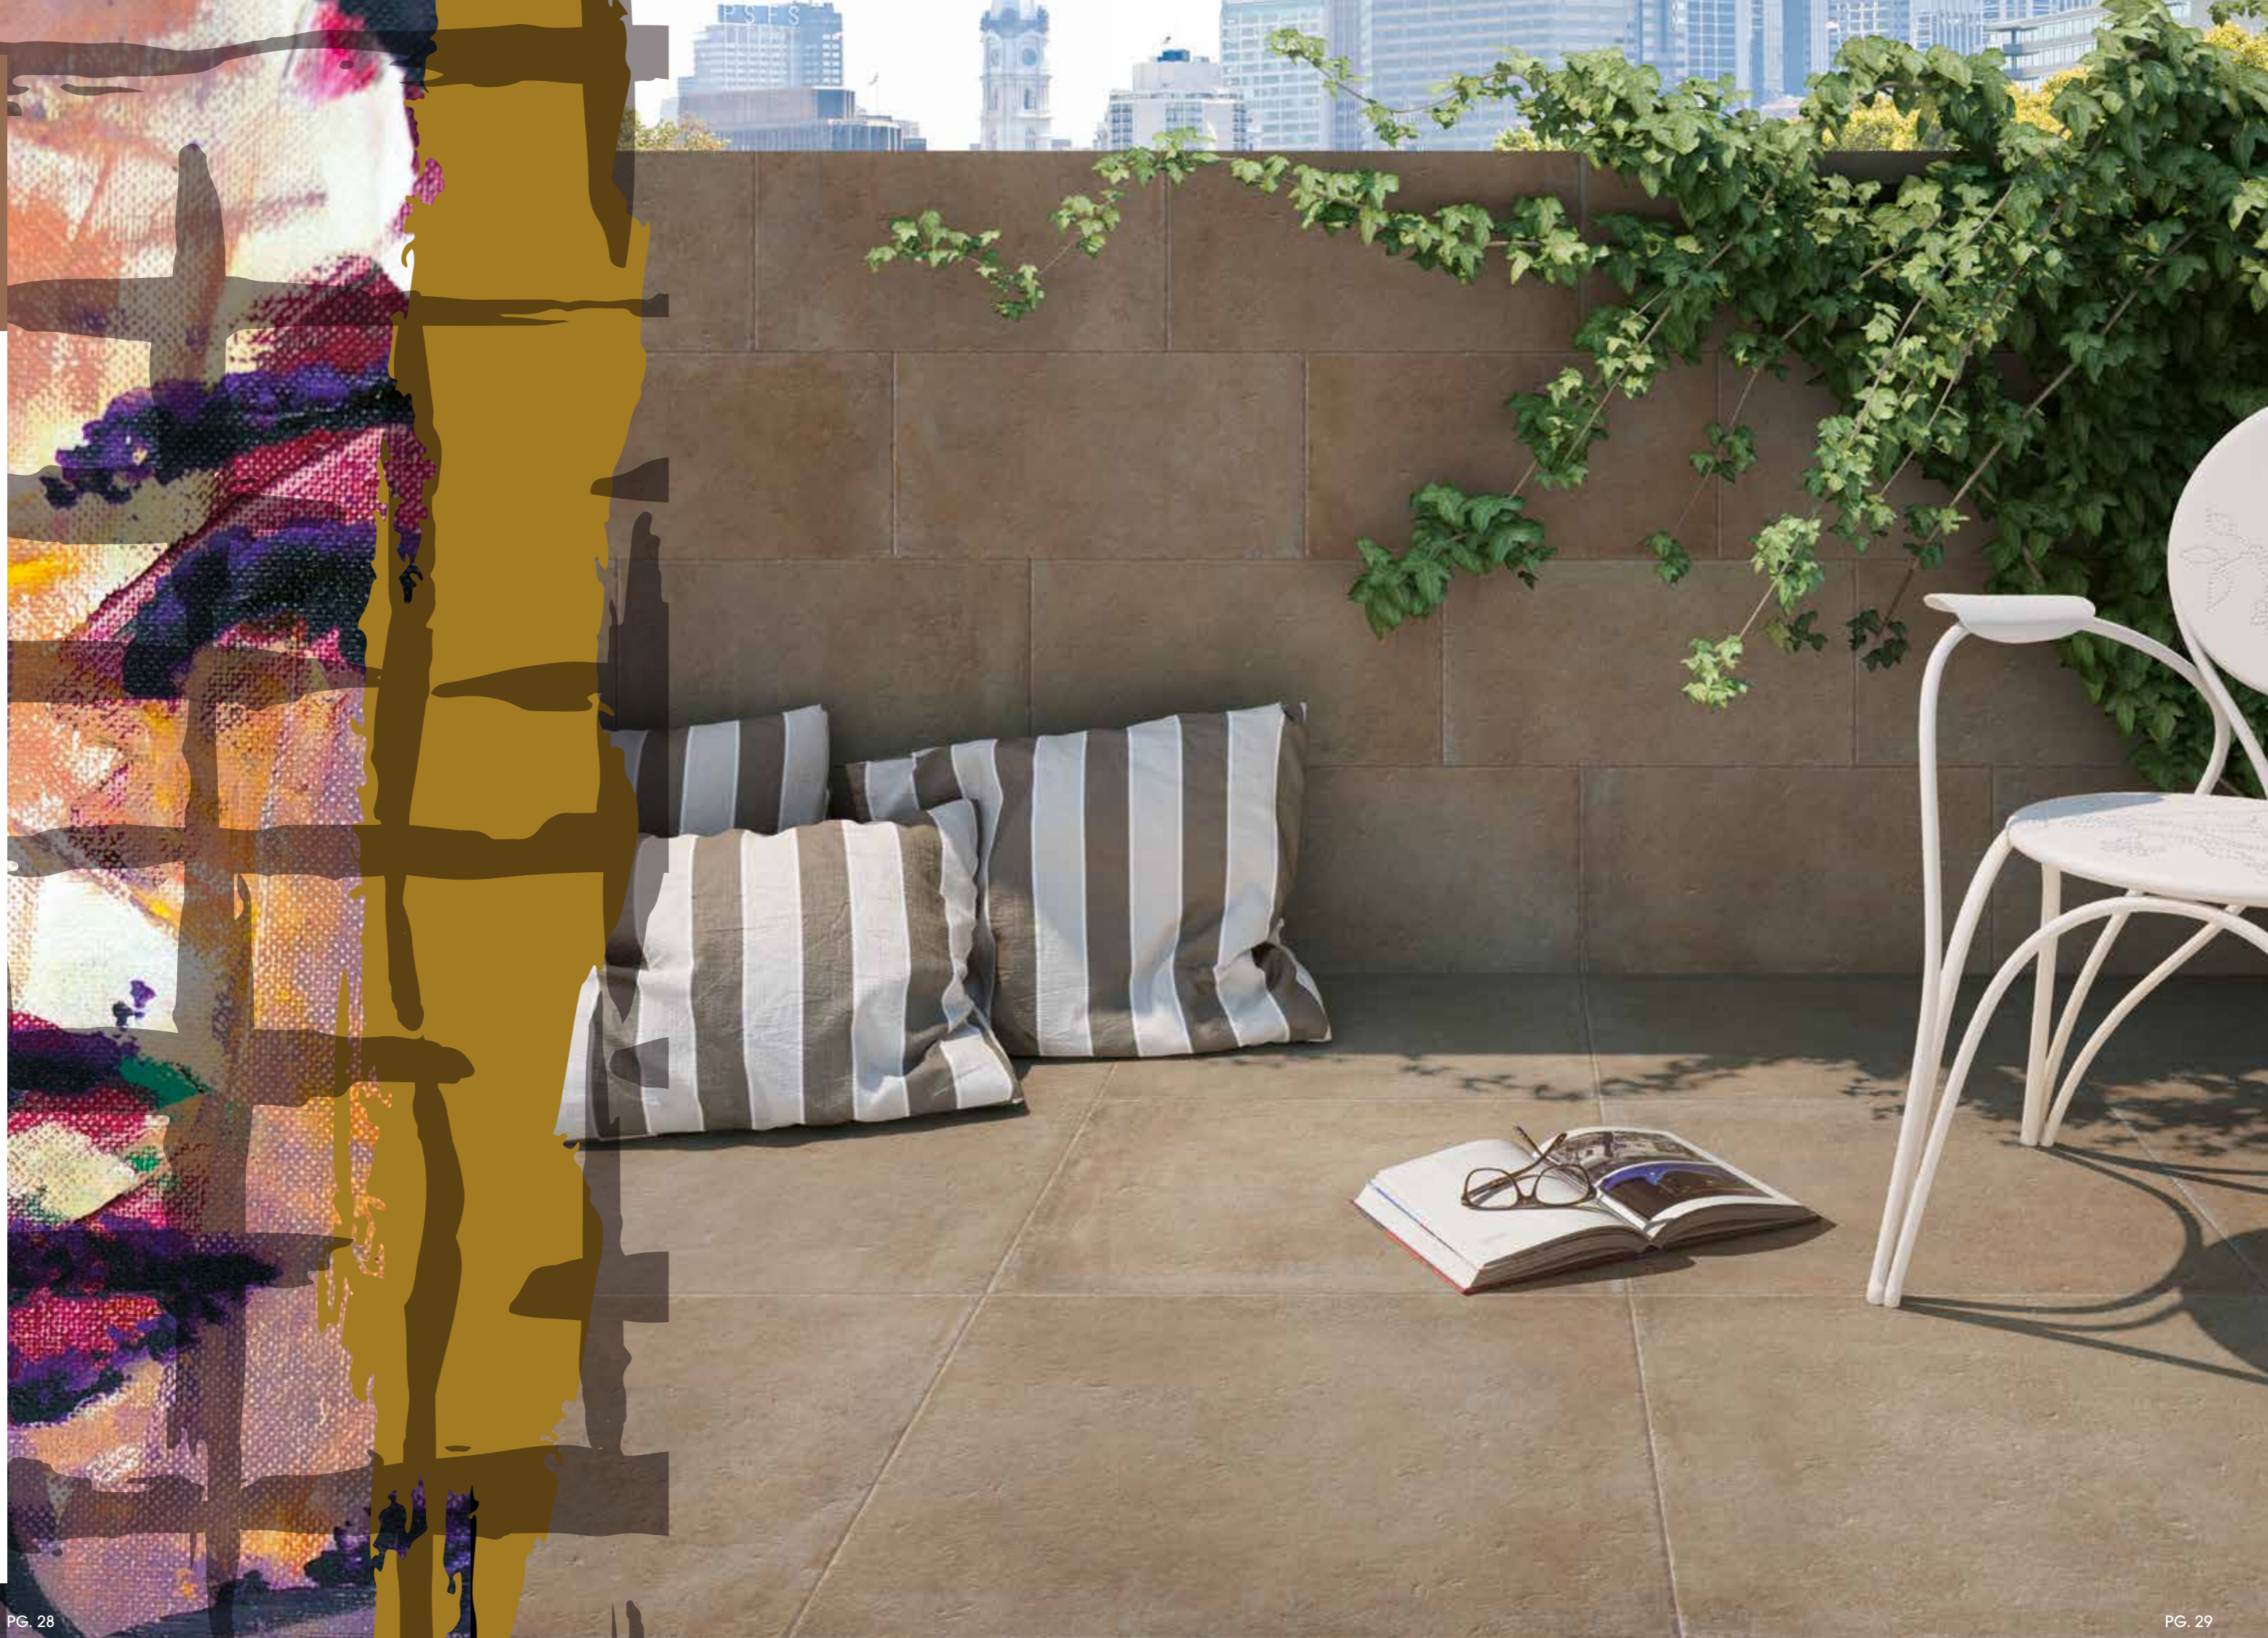

art. 61928 ivory 60x60_24"x24"

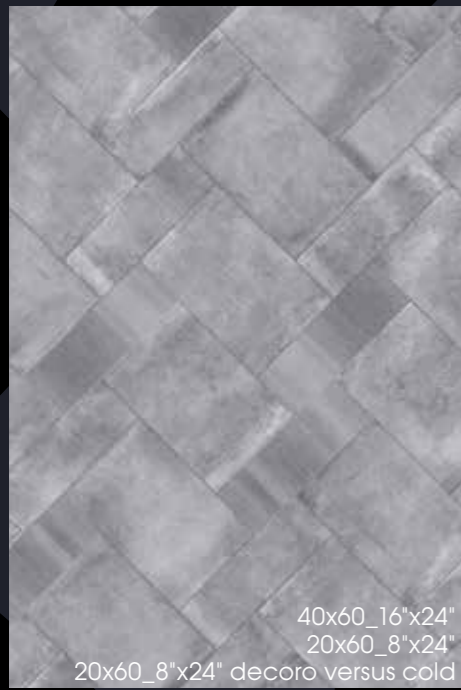

Мысли, скрытые в предметах: в этом заключается сущность Verve.

Песочные оттенки, агрегации материи, художественные геометрические формы тон в тон: исключительность Verve проявляется в каждой детали, созданной как уникальный и неповторимый элемент. Бетон индустриального стиля и тепло терракотовых плит слились в необычный ансамбль, создавая оригинальную коллекцию с широкими аппликативными возможностями. Интерпретация множества стилей современности: от жилищного до коммерческого, от реконструкции промышленных пространств в городском контексте до престижного жилья. Сильная и разнотонная графика рядом со скромным нейтральным рисунком: концептуальное и эстетическое выражение многогранной личности. Геометрические переплетения, игра рисунка трансформируют изысканный классический стиль в современный.
